

Jesus Fernandez Crespo

PROFILE

I began practicing agility in 2006 with Coba my first Border Collie, we've competed in multiple events, both national and international. Some examples: the Spanish Championship, the European Open, Crufts, WAO, etc...

Later, Hera, Knut, Mokka and Baileys came into my life, and with all of them I've reached multiple sporting successes, especially in recent years with Mokka the first Working Cocker to compete individually in AWC, gathering the greatest international successes.

I'm linked to this sport since 2008, as a competitor and with administrative activities to support the growth of Agility. In fact, currently I'm the Spanish delegate for agility at the Spanish kennel (RSCE) with representation in FCI meetings. I've become an international judge in 2020, and quickly received recognition and appreciation for my work in Spain. Currently I'm one of the most active Spanish judges in the national and international competitions.

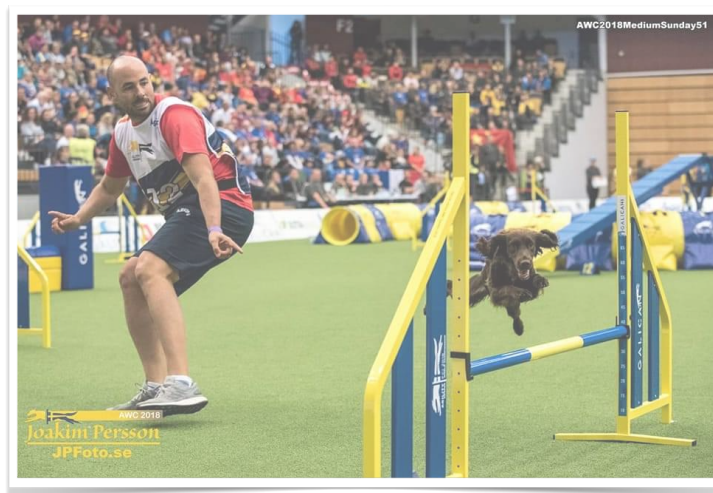

Pioneer in the competition with Working Cocker in agility, affix spartan wocker, having many successes both with his dogs and those of his line in all the competitions where they fight

EXPERIENCE AS COMPETITOR

Active agility competitor for the last 14 years, I founded with my wife, our own agility club Mi perro 10 in 2013, I am competing in all national and international agility events (AWC, EO, WAO, GoldRush, Crufts...), one rule in my mind, compete like you train, and train like you compete.

EXPERIENCE AS TRAINER

More than 10 years teaching agility classes and intensive seminars in Spain, Portugal, Denmark, Greece, Lithuania, Sweden, El Salvador..., always having a very high degree of satisfaction, demonstrated by the fact that I have returned to give new courses,

Among my students there are competitors from the national teams of those countries, as well as national champions. I always try to give the student the right skill for each team, being convinced that each team is unique and unrepeatable.
